

**IN THE SPECIFICATION:**

Page 1, lines 1-2, replace the paragraph with the following amended paragraph.

**CROSS-REFERENCE TO RELATED APPLICATION**

This application is a continuation of application Serial No. 09/551,313, filed April 18, 2000, now abandoned, the priority of which is hereby claimed.

Page 6, line 21 to page 7, line 3, replace the paragraphs with the following amended paragraphs.

In addition to the aforesaid net-like member or the sheet-like member, it may be applicable that there is provided a structure having a configuration in which both front surface and rear surface of it are provided with many protrusions and the protrusions may ~~bite~~extend into each of the layers and be fixed there.

Page 8, line 14 to page 9, line 2, replace the paragraph with the following amended paragraph.

The net-like member 2 is made such that net openings 21. . . 21 are of 14 mm and a diameter of each of the net portions 22 . . . 22 is about 2 mm and the net-like member is molded in compliance with the shape of the shell 1. As shown in Fig. 2, the net-like member 2 is

hardened such that the synthetic resin in the non-woven fabrics 132, 133 is passed through the net openings 21. . .21 under the placed state and hardened to enclose the net portions 22. . .22 and then the net-like member 2 is hardened and integrally formed under a state in which the front surface and the rear surface of the net portions 22. . .22 are put into the non-woven fabrics 132, ~~132~~133 with respect to each other.
